

# Capture the complete patient story naturally and efficiently

Next-level speech-driven clinical documentation with secure, convenient, and comprehensive support from pre-charting through post encounter.

## Fast, flexible, and future-proof

Built on a modern architecture, Dragon Medical One, the industry's #1 rated conversational AI workflow assistant and documentation companion, empowers clinicians to create comprehensive clinical documentation and more naturally navigate workflows using just their voice.

- **Off-the-charts accuracy.** Sophisticated speech capabilities allow you to dictate high-quality notes. Achieve 99% accuracy, including automatic accent detection and audio calibration, with no voice profile training.
- **Dictation done better.** Advanced speech with natural language commands promotes a hands-free, efficient approach to documenting care before, during, or after the patient visit. Clinicians decide how and where documentation gets done—from dictating at the cursor to using an integrated dictation box, as well as modern browser support.
- **Personalized productivity boosters.** Streamline documentation by creating and sharing shortcuts, AutoTexts, voice commands, and custom vocabularies across individuals, departments, and organizations.
- **Auto-punctuation.** Save time with speech recognition intuitive enough to finish your sentences—and punctuate them correctly.
- **Extra mobility.** When paired with PowerMic Mobile, any workstation becomes a dictation station, giving clinicians freedom to document notes using their smartphone as a secure wireless microphone.
- **Consistent voice experience.** Easily manage licenses, deployments, and default settings to ensure an efficient, familiar, and predictable experience across care settings, devices, and apps.
- **Industry-leading architecture.** With remarkable responsiveness and resiliency, this HITRUST CSF-certified solution enables broad integration and seamless support for both browser and web-based EHRs—giving you the flexibility you need in the environment you want.

#1 Best in KLAS for  
Speech Recognition  
(Front-end EMR)

## Delivering better productivity, efficiency, and quality

98% of physicians recommend Dragon Medical One

50% less time spent on documentation

100M fewer clicks per day

54% increase in optimized user productivity

8 out of 10 physicians agree that Dragon Medical One improves overall documentation quality

## Ease access for an enriched workflow experience

Using integrated voice skills, Dragon Medical One alleviates the administrative burden on clinicians. By reducing repetitive tasks and easing information access, clinicians can spend less time on documentation—and more time with patients.

### Custom skills

Create your own voice experience by automating tasks such as chart navigation, orders, and signing notes. Go beyond clinical workflows to draft personal emails, navigate Microsoft Office documents, and search the web.

### Advanced skills

With built-in access to third-party apps, use your voice to seamlessly search for clinical content through applications like UpToDate or access medical reference data with MDCalc.

### Premium skills

Extend the reach of your investment with EHR-specific voice skills designed to enhance capabilities and drive even more efficiency.

## Improve quality and promote appropriate reimbursement

Industry-leading Computer-Assisted Physician Documentation (CAPD), delivered through Dragon Medical Advisor and available in Dragon Medical One, engages physicians across inpatient, outpatient, and specialty care with in-workflow, evidence-based advice.

## Boost efficiency and improve performance

Use self-service analytics and peer benchmarking to track and monitor KPI trends while maximizing individual and group-level performance with actionable intelligence. Identify opportunities for ongoing improvement and measure performance against hundreds of thousands of users across more than 6,500 healthcare organizations.

## When people aren't talking to Dragon Medical, they're talking about it

"Dragon has literally made me a better father. The amount of free time I now have on the weekends to spend with my children is priceless. Before Dragon, I would spend anywhere from three to six hours on a Sunday, reviewing, editing, and signing numerous charts that took away family time. Dragon changed that for me, and I am grateful."

—Dr. Michael Greene  
Peachtree Spine Physicians

## Dragon Medical One + DAX: A natural combination with unparalleled potential

For even greater performance, pair Dragon Medical One with Dragon Ambient eXperience (DAX) to document patient encounters securely and automatically. Together, these Dragon solutions revolutionize how documentation gets done.
